Compact and airline-compliant, making it easy to carry on flights.

The world's first dual gameplay

Can be used for WING FOIL SUP scooters.
Can be used for underwater scooters or swimming scooters.

Ultra high speed algorithmic motor

Adopting the latest algorithm system for high-speed operation without pressure.

PERFORMANCE SPECIFICATIONS

ITEM	SPECIFICATION	DESCRIPTION
Technical Specification	Size	Fixed Wings: 665mm*76mm Folding Wings: 608mm*76mm
	Weight	4.35 KG
	Max speed	1.4 m/s
	Max depth	60 m
	Waterproof grade	IP68
	Material	Aluminium alloy
Battery Parameter	Nominal Voltage	25.2 V
	Battery Capacity	98 WH
	Battery life	1 H
	Battery charging time	1 H
	Reverse charging	Support, 100 W output
Motor Parameter	Voltage	24 V DC
	Rated Power	1500 W
	Max Speed	5000 RPM
	Thrust	8 KG
Functional Characteristics	Compatible with all foilboards.	
	Easy installation and disassembly.
